HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every mem-ber of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and purpose, Dr. Hostetter has in troduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. operate powerfully upon the stomach, bowels and liver, restoring them to a healthy and vigorous action, and thus, by the simple pro-cess of strengthening mature, enable the system to triumph over discase.

For the cure of Dyspepsia, Indigestion, Nau-sea, Flatulency, Loss of Appetite, or any Billious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these

Bitters have no equal.

Diarrhosa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using directions on the bottle. For this disease every physician will recommend Bitters of some kind then why not use an article known to be infal-lible? All nations have their Bitters, as a preventive of disease and strengthener of the sys-tem in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation ema nated, based upon scientific experiments which

have tended to prove the value of this great preparation in the scale of medical science. Fever and Aque.—This trying and provok-ing disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep

and healthy digestion, the complaint is re-moved as speedily as is consistent with the pro-duction of a thorough and permanent cure. For Persons in Advanced Years, who are suffering from an enfeebled constitution and suffering from an enterbied constitution and infirm body, these Bitters are fivaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nour-ishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostette's Stormer Bitters, is needed to innare. Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will

recommend their use in all cases of weakness. CAUTION .- We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph

signature is on the label.

The preprietors, in calling the attention of the public to this preparation, do so with a feeling of the atmost confidence in its virtues and adaptation to the discuses for which it is recommended.

It is no new and untried article, but one that has It is no new and untried arricle, but one that has stood the test of a ten years 'trial betwee the American people, and its rejutation and sale are untivalled by any similar preparation extant. The testimony in its favor given by prominent and well known Physicians and tadivintuals in all parts of the country is immense, and a caroini perusal of the Almanac, published annually by the proprietor, and to be limit grates of my of his Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.
